Core Competencies

Our diverse technical team leverages Summit's core competencies in **Knowledge Management, Decision Support, Enterprise Security and Network Infrastructure** to deliver custom business solutions that provide 'best value' to our customers. Our flexible approach to solution delivery ranges from COTS implementation, custom systems development, deployment and support, while integrating our customers' business requirements with their technology environment. Summit's federal customer base includes Department of Transportation (FAA), Department of Defense, (DISA, U.S. Navy, Army, Joint Chiefs of Staff and Intelligence Community), Department of Homeland Security (DHS, TSA, CBP) and others.

Knowledge Management & Decision Support

Summit delivers customized software applications with 'best-of-breed' technologies and methodologies. Our experience is extensive in n-tier and client/server environments, both enterprise-wide and department-centric. Our solutions are flexible, comprehensive and user-friendly. Summit's expertise includes:

- Collaboration & Workflow Solutions
- Data Visualizations & Dashboards
- Business Intelligence Solutions
- Data Warehousing & Data Analytics
- Custom Software Development
- Application Maintenance

Enterprise Security

Summit enables organizations to secure their information technology systems, data and communication environments through the implementation of a host of comprehensive security solutions. Incorporating our customers' security philosophies, Summit integrates security solutions and services spanning:

- Network & System Security Engineering
- Identity Management (IDM)
- Single Sign-On (SSO)
- Public Key Infrastructure (PKI)
- Certification & Accreditation (C&A)
- Security Awareness, Audits & Assessments

Network Infrastructure

Summit provides comprehensive infrastructure services for complex network systems in distributed computing environments including assessment, design, implementation, operations and maintenance. Summit's experience is focused in these areas:

- Network Architecture and Engineering
- Network Operations & Maintenance
- Migration Services
- Deployment Services
- Systems Integration
- Help Desk & Desk-Side Support
